

*Solutions to help companies  
integrate data in all formats*

### **B2B and Company-Wide Data & Business Process Interaction**

EXTOL PROVIDES A VARIETY of software and managed services solutions to help companies integrate both electronic and manual business transactions (B2B), as well as internal processes. EXTOL solutions include: software modules for discrete functional requirements (such as EDI, HIPAA, XML or spreadsheets), managed services or complete integration platforms.

### **EXTOL Customer Profile**

- Most of EXTOL's customers have annual revenues of above \$50 million. Some are business units of Fortune 500 companies.
- Most EXTOL customers face an EDI requirement, and some have legacy, traditional EDI systems.
- All EXTOL customers want high quality, yet affordable integration solutions.
- Most EXTOL customers participate in B2B transaction-based industries that require increasingly efficient supply chains and distribution channels which necessitate strong internal and external integration capabilities.
